

Software Developer

REQ17943

As part of the University's ongoing commitment to redeployment, please note that this vacancy may be withdrawn at any stage of the recruitment process if a suitable redeployee is identified.

Job Description

Job Grade Management and Specialist Grade 6

Job Purpose To undertake assigned business analysis, package implementation, software development and user support tasks, according to agreed standards and guidelines and normally as part of a team, in order to meet the University's corporate information systems' requirements. The initial focus of this job is expected to be the in-house system development for the student-related statutory returns particularly in relation to HESA Data Futures.

Job Duties

1. To participate in software development, package acquisition and implementation projects and programmes in order to deliver effective and efficient business solutions.
2. To undertake the necessary maintenance and enhancement of the corporate information systems, including related system and user documentation, in such a way as to assure their utility, quality, security and integrity.
3. To participate in testing the corporate information systems including the development and execution of test plans and automated testing.
4. To advise, assist and train staff in the use of the corporate information systems in order to help them resolve problems and use the systems to best effect.
5. To keep the corporate information systems' developments compatible and integrated with the rest of the University's corporate information systems.
6. To liaise with University staff, suppliers, the HE sector and government bodies in order to ensure that an effective and efficient service is available to both internal and external University stakeholders at all times.
7. To participate in the documentation, review, revision and development of business processes in order to improve the effectiveness and efficiency of those processes.
8. To be fully conversant with the range of IT facilities and services available, and to keep abreast of relevant developments in IT and IT legislation, in order to provide optimal service.
9. To undertake any other tasks on an occasional basis which may reasonably be required by the line manager.

Points To Note

The purpose of this job description is to indicate the general level of duties and responsibility of the post. The detailed duties may vary from time to time without changing the general character or level of responsibility entailed.

Special Conditions

Working outside normal working hours is occasionally necessary. Such out-of-hours working as is necessary is scheduled in negotiation with the group of staff with relevant skills, and takes account of the personal commitments and wishes of individuals. When convenient, it can sometimes be appropriate for the work to be carried out remotely at home.

For purposes of system management, IT Services staff often have enhanced access to data, files and computer systems and must at all times respect the privacy of information to which they have enhanced access. The only exception to this will be investigations authorised by IT Services Director or his/her nominee.

All staff have a statutory responsibility to take reasonable care of themselves, others and the environment and to prevent harm by their acts or omissions. All staff are therefore required to adhere to the University's Health, Safety and Environmental Policy & Procedures.

All staff should hold a duty and commitment to observing the University's Equality & Diversity policy and procedures at all times. Duties must be carried out in accordance with relevant Equality & Diversity legislation and University policies/procedures.

Successful completion of probation will be dependent on attendance at the University's mandatory courses which include Respecting Diversity and, where appropriate, Recruitment and Selection.

Organisational Responsibility

Reports to the Software Engineer, Student Information Systems.
